

# Trevor

Name: Trevor      Age: 7 years  
Village: Wakisi      Diagnosis: Clubfoot, Lower Extremity Malformations

Trevor is a boy with multiple lower extremity malformations including bilateral clubfoot. He underwent an unsuccessful corrective surgery a few years ago and has been receiving care at Kisaakye Rehabilitation since. Due to his therapies and his mother's love and persistence, Trevor has been able to crawl and learn basic daily living activities such as bathing, toileting, dressing and feeding himself. He is very bright and loves to attend school.

Trevor had sponsorship to attend a school near his home, but unfortunately his sponsor is no longer able to support him. Trevor is in the pre-school class at his school and has learned to count, read and write. He is showing great progress and will hopefully be able to catch up in school. His mother remains very attentive to his therapies and continues to bring him to Kisaakye Rehabilitation for occupational therapy sessions.

Sponsorship for Trevor would allow him to remain in school, where he would receive books, supplies, uniforms and meals. The cost is \$45 per month payable via Paypal. Sponsorship includes updates on Trevor throughout the year and following Our Hope's annual trip to Uganda. If you would like to sponsor Trevor, please contact us at [ourhopeinternational@gmail.com](mailto:ourhopeinternational@gmail.com) or use the 'Donate' tab on our website, being sure to click the automatically repeat checkbox.
